June 2026 to Present: Tech & Resources Officer, SMU Mathematics Society -Managing technical resources, maintaining digital platforms, and supporting the planning and delivery of academic programmes and society events.

- Improved event delivery by coordinating technical resources for society activities
- Increased digital engagement by supporting online promotion of society initiatives.

July 2026 to Present: Project Leader – AI Financial Management System, Sefako Makgatho Health Sciences University -Leading a multidisciplinary team in designing an AI-powered financial management system, preparing and cleaning project data, and coordinating development activities.

- Coordinated project planning, task allocation, and team activities to support project progress.
- Designed the system architecture and prepared project data for AI model development.

January 2026 to April 2026: Mathematics Tutor, Self-Employed -Delivered one-on-one Mathematics lessons to Grade 10–12 learners by explaining mathematical concepts, assessing learner progress, and adapting teaching methods to individual learning needs.

- Improved learner understanding by delivering personalised Mathematics lessons.
- Enhanced problem-solving skills by adapting lessons to individual needs.

2026: Hult Prize Competition Participant, Sefako Makgatho Health Sciences University –

Collaborated with a multidisciplinary team to research, design, and develop an innovative technology solution while preparing and presenting the business concept during the Hult Prize competition.

- Developed an innovative solution by conducting research and validating the proposed concept.
- Strengthened team performance by recruiting new members and coordinating project responsibilities.

May 2025: Microsoft Hackathon Participant, Microsoft South Africa -Contributed to the development of a web-based platform by supporting front-end development, collaborating with team members, and assisting with solution delivery.

- Developed a functional prototype by implementing responsive HTML, CSS and JavaScript interfaces.
- Improved user experience by contributing to front-end design and implementation.

March 2024 to May 2024: Software Developer – Student Support Platform, Sefako Makgatho Health Sciences University –Collaborated with team members to design and develop a web platform using HTML, CSS, and JavaScript to connect first-year students with mentors, student organisations, and academic support services.

- Delivered a functional student support platform by contributing to the design, development, and testing of the system.
- Improved platform usability by implementing responsive front-end interfaces using HTML, CSS, and JavaScript.

Bachelor of Science in Mathematical Sciences
Sefako Makgatho Health Sciences University
Expected Graduation: 2026
